The Center for the Study of Biological Complexity within VCU Life Sciences is accepting applications for new bioinformatics programs at the undergraduate and graduate levels. Bioinformatics courses are listed online through e-services' open course search, using BNFO as the subject code. Additional courses will be open during the 2004-05 and 2005-06 school year.

Students will find descriptions of the bioinformatics programs on the VCU Web at http://www.vcu.edu/cbsc/education.html. Full course descriptions can be found under VCU Life Sciences in the VCU Bulletins.
