### APPM Applied Music

#### Note to Students Registering for Private Lessons.

Private lessons in classical and jazz instruments and voice are available to VCU students for one to three credits each term. Ability to read music is required.

For undergraduate music majors, one-credit lessons have an additional applied music fee of \$130/term, two- and three-credit lessons have an additional fee of \$260/term. For undergraduate non-music majors, one-credit lessons have an additional applied music fee of \$225/term, two-credit lessons have an additional fee of \$450/term.

For graduate music majors, one-credit lessons have an additional applied music fee of \$150/term, two- and three-credit lessons have an additional fee of \$300/term.

Registration for a one-credit lesson entitles the student to one 30-minute lesson per week for 14 weeks, two- and three-credit students are to receive a one-hour lesson per week for 14 weeks.

Lessons are available in the following areas: bassoon, carillon, cello, clarinet, conducting (graduate, three credits only), composition, double bass, drum set, euphonium, flute, French horn, guitar, harp, harpsichord, oboe, organ, percussion, piano, saxophone, synthesizer, trombone, trumpet, tuba, violin, viola, and voice. To register for any private lesson, non-music majors must obtain the correct call number from Room 132, Performing Arts Center, 922 Park Ave., or call the Department of Music office, (804)828-1166. Music majors need only consult their advisers.

At the undergraduate level, one-credit lessons are open to all majors, two credit lessons are available to non-music majors with permission of instructor, and three credit lessons are restricted to music majors. Each course is repeatable without limitation. All undergraduate students register on the 300-level, all graduate music majors on the 600-level.

After registering for lessons, it is the responsibility of the student to contact his or her assigned teacher by the conclusion of the add/drop period. Teacher assignments are posted beside Room 132, Performing Arts Center, 922 Park Ave., on the first day of classes each term. Any student who decides to drop or withdraw from a private lesson has the responsibility to do so prior to the prescribed university deadlines. University policies regarding tuition refunds apply to private lessons. The applied music fee is not refundable after the add/drop period.

## School of Business

### MGMT Management

Eligibility for enrollment in most upper division School of Business courses (300-400 levels) is restricted to juniors, seniors and graduate students and to special students who have completed baccalaureate degrees. Students without these qualifications may enroll only in the following upper division Management (MGMT) courses, provided any course prerequisites are met: MGMT 301-302 Business Statistics, MGMT 421 Small Business Mgmt. Before registering, please refer to the current University Bulletin for course prerequisites or course restrictions.

## School of Business

### MRBL Marketing and Business Law

Eligibility for enrollment in most upper division School of Business courses (300-400 levels) is restricted to juniors, seniors and graduate students and to special students who have completed baccalaureate degrees. Students without these qualifications may not enroll in the upper division Marketing and Business Law (MRBL) courses. Before registering, please refer to the current University Bulletin for course prerequisites or course restrictions.

### CHEM Chemistry

All chemistry classes, including laboratories and recitation sections, meet from the first day of classes. Students enrolled in chemistry classes must attend the first scheduled class. Students on the class roll who do not attend may be dropped and replaced with students waiting to add the class.

### ENGL English

NOTE: English 101 is prerequisite for all 200-level English courses; three (3) credits in 200-level literature courses (or equivalent) are prerequisite to all 300-and-400 level English courses. Students must have 24 credits before enrolling in English 200, Composition and Rhetoric II. ENGL 102 is no longer offered.

### MATH Mathematics

Any student requiring a mathematics course before enrolling in a calculus, statistics or computer science course should note the following: If you have not taken the mathematics placement test, and have not taken the prerequisite course for the course you need, take the mathematics placement test before enrolling in mathematical sciences courses. With the advent of new general education requirements in all schools within the university, the 100- and 200-level mathematical sciences courses have been revised. Make sure you know which of these courses are recommended for your major. Both the Department of Mathematical Sciences and your adviser can help you with the choices possible. For those preparing for, and not placing into, calculus (MATH 200), the new course MATH 151 Precalculus Mathematics is the appropriate prerequisite course. For those preparing for, and not placing into, statistics (STAT 208 or STAT 210) MATH 131 is the recommended prerequisite, though any higher-numbered MATH course will serve as well; it is important that you satisfy any of your department's requirements while preparing for your statistics course. The non-credit course Elementary Algebra (MATH 001) is offered in lecture (031-034, 936) and self-paced (004-017, 918-922) sections and is charged at the undergraduate three-credit hour rate. Algebra with Applications (MATH 141) is offered in self-paced (004-017, 918-922) sections.

### STAT Statistics

Any student requiring a statistics course for their major should check with their department/adviser regarding which course is the appropriate course for him/her. The two courses STAT 208 and STAT 210 replace the STAT 213 course, with some departments requiring STAT 210, some requiring STAT 208, and some recommending one or the other. Note that the prerequisite for either course is a satisfactory score on the Mathematics Placement Test or completion of MATH 131 or higher level MATH course. Transfer students can demonstrate accepted transfer credit for a college algebra (or higher level) course as prerequisite.

### VCU1 Academic Affairs

#### VCU1 101 - Introduction to the University

This course is designed to orient new students to the rich traditions and purposes of an education at Virginia Commonwealth University. It is designed to assist students in making the transition from a high school program, from a community college or other university program, or from the world of work - to academic life at VCU. Through lectures, class discussions, on-campus projects, readings, and the opportunity to work with faculty in a small-group setting, students can discover the resources and services of VCU, assess their academic strengths and limitations, consider academic and career goals, and clarify expectations about being a student at VCU. After this course, students will understand better their "fit" as a new member of the VCU community and the ways to achieve a personally rewarding and successful academic program.
