Service learning

Service-learning courses extend the boundaries of the classroom into the community so that students can get first-hand experience applying the knowledge of the course to real-world challenges. Students participate in community service projects and then reflect on their activities in the classroom so that they can better understand the course material and needs of the community. For more information on service learning contact Dr. Cathy Howard or Kim Hale in the Office of Community Programs at (804) 828-1831.
