Chemistry

All chemistry classes, including laboratories and recitation sections, meet from the first day of classes. Students enrolled in chemistry classes must attend the first scheduled class. Students on the class roll who do not attend the first scheduled class may be dropped and replaced with students waiting to add the class.

Mathematics

Any student requiring a mathematics course before enrolling in a calculus, statistics or computer science course should note the following: if you have not taken the Mathematics Placement Test and have not taken the prerequisite course for the course you need, take the Mathematics Placement Test before enrolling in mathematical science courses. Make sure you know which courses are recommended for your major. Both the Department of Mathematics and Applied Mathematics and your advisor can help you with the possible choices. For those preparing for, and not placing into, calculus (MATH 200), MATH 151 Precalculus Mathematics is the appropriate prerequisite course. For those preparing for, and not placing into, statistics, (STAT 208 or STAT 210), MATH 131 or MATH 141 is recommended as a prerequisite, though any higher numbered MATH course will serve as well; it is important that you satisfy any additional mathematics requirements of your department as well as preparing for your statistics course. (For more information about the Mathematics Placement Test or college requirements, please visit <http://www.math.vcu.edu/mathlab/>) The noncredit course MATH 001 Elementary Algebra is only available during the summer session, and will not be offered for Fall 2003.

Spanish

Students with at least three units of French and who wish to continue study of that language at VCU, **MUST** take the Language Placement Test before registering. The test will be given June 19 through July 21 and Aug. 14, 15 and 18 in the Language Learning Center, Hibbs Building, Room 424. Students must arrive on time.

Statistics

Any students requiring a statistics course for their major should check with their department/adviser regarding which course is appropriate. Some departments require STAT 210, some require STAT 208, and some recommend (but do not require) one or the other. Note that the prerequisite for either course is a satisfactory score on the Mathematics Placement Test or completion of MATH 131 or higher level math course. Transfer students can demonstrate accepted transfer credit for a college algebra (or higher level) course as a prerequisite.
